PROFESSIONAL SUMMARY

Texas State University Computer Information Systems student and U.S. Army veteran seeking a Summer 2027 internship in business systems analysis, IT or product operations, reporting, or security compliance. Founded an Amazon and Shopify brand with \$60,000+ in gross sales in its first five months, reviewed 70+ high-risk AML cases monthly at UBS, and led a 24-person Army shift that completed all 120 assigned sorties.

EXPERIENCE

Founder | MODTECH Ventures LLC Mar 2026 - Present

- Built and operate a 10-SKU e-commerce brand on Amazon (Fulfillment by Amazon) and Shopify, managing sourcing, pricing, packaging, and fulfillment; generated \$60,000+ in gross sales in its first five months.
- Negotiated pricing across 12 supplier orders covering 20,575 units, using landed-cost analysis to compare suppliers; cut landed unit cost 20% on the core product line and 34% on its accessory line, saving \$6,500+ versus first-order pricing.
- Run Amazon Sponsored Products and Meta ad campaigns with \$11,000+ in combined spend (Jun-Sep 2026); Amazon ads drove \$23,000+ in attributed sales at a 2.6x return on ad spend.
- Identified missing-accessory complaints in Amazon reviews and benchmarked competitor pricing and bundles; added accessories to a core product at the same price and clarified packaging instructions, resulting in higher product sales.

Financial Intelligence Analyst | UBS, Nashville, TN Mar 2024 - Apr 2025

- Reviewed 70+ high-risk client cases monthly for anti-money laundering (AML) risk, closing cases with written summaries and drafting 2+ suspicious activity reports (SARs) weekly; cases passed quality assurance (QA) review with zero errors.
- Built Power BI reports and Excel analyses that filtered client transactions by date to flag rising transfer activity; managers used the reports to prioritize cases and speed up reviews.
- Consulted legal on SAR standards and reporting limits and used IT-run SQL database searches to resolve case research questions.
- Took independent ownership of high-risk client cases within 30 days, a third of the usual 90-day ramp-up for new analysts.

Operations Supervisor, Senior UAS Flight Commander | U.S. Army, Fort Campbell, KY Apr 2019 - Mar 2024

- Piloted MQ-1C Gray Eagle unmanned aircraft system (UAS) missions from preflight to recovery, logging 1,000+ accident-free flight hours.
- Led a 24-person shift across 4 teams during a 90-day combat deployment; assigned task owners and deadlines, secured leadership approval of operational plans, and completed 100% of 120 assigned sorties.
- Planned 2 battalion marksmanship training events for 1,200+ combined personnel with zero safety incidents, building roadmaps from assignment to event day, coordinating ammunition, schedules, and support teams, and briefing company leadership biweekly on progress.
- Trained 5 unmanned aircraft operators one at a time in mission planning, flight procedures, and recordkeeping, running a 30-day preparation for each soldier's qualification board; all 5 qualified as aircraft commanders.

Human Resources Specialist | U.S. Army, Savannah, GA Aug 2014 - Mar 2019

- Processed pay, leave, award, and promotion actions and records for 650+ soldiers in 3rd Battalion, 160th Special Operations Aviation Regiment (SOAR).
- Reviewed, corrected, and organized personnel files and briefed inspectors for two battalion-wide HR audits; both closed with no issues, earning an Army Achievement Medal for each.

PROJECTS

MODTECH Shipment Tracking & Alerts | Systems Analysis & Design Course Project Fall 2026

- Wrote a user story and five acceptance criteria for tracking supplier and customer shipments, replacing manual carrier-page checks.
- Directed Hermes Agent and OpenAI Codex to build a Python tracker that checks Shippo hourly and sends Telegram alerts on status changes.

EDUCATION

Bachelor of Business Administration, Computer Information Systems | Concentration: Software Development Expected December 2027

Texas State University, San Marcos, TX | GPA: 3.80 | *President's List, Fall 2025 & Spring 2026*

Associate of Applied Science, Unmanned Aerial Vehicle Flight Operator February 2023

Cochise College, Sierra Vista, AZ | GPA: 4.0

SKILLS

Business Systems & Operations: Requirements gathering, process documentation, project planning, supplier and stakeholder coordination
Analysis & Reporting: Power BI, Excel, cost and margin analysis, transaction review
Platforms: Amazon Seller Central & FBA, Shopify, Shippo REST API, Microsoft Office (Word, Excel, Outlook, Teams)
Developing Technical Skills: Python and SQL (coursework); directing and testing AI coding agents (OpenAI Codex, Claude Code, Hermes Agent)
