PROFESSIONAL SUMMARY

U.S. Army veteran and Texas State University CIS student (GPA 3.80) with experience in project planning, business operations, and cross-functional coordination. Led deployment readiness for 38 soldiers, managed 70+ high-risk client cases monthly at UBS, and launched an e-commerce business generating \$50,000+ in its first four months. Skilled in timeline coordination, stakeholder communication, and data analysis. Expected graduation: December 2027; available June 2 - August 13, 2027.

EXPERIENCE

Founder | MODTECH Ventures LLC

Mar 2026 - Present

- Launched and operated a 4-SKU e-commerce business generating \$50,000+ in gross sales within four months; coordinated supplier sourcing, packaging, inbound fulfillment, pricing, and launches across Amazon and Shopify.
- Analyzed 24 supplier invoices covering 14,575 units across 2 product lines to build a landed-cost model; reduced per-unit cost by 24% through volume tiering and established profitability thresholds to guide pricing and advertising decisions.
- Coordinated 3 suppliers across approximately 6 product launches; built an AI agent to track inbound shipments from China and improve planning for receiving, packing, and dispatch to Amazon fulfillment centers and direct customers.

Financial Intelligence Analyst | UBS, Nashville, TN

Mar 2024 - Apr 2025

- Managed 70+ high-risk client cases monthly across anti-money laundering and compliance workstreams; used Power BI and Excel to analyze transaction patterns and support disposition and escalation decisions.
- Learned a multi-system financial platform within 30 days and assumed independent case ownership by week 4, contributing to team throughput without escalation support.
- Collaborated with legal, IT, and compliance teams to resolve case-specific roadblocks while maintaining 100% regulatory accuracy across reviewed cases.

Operations Supervisor / UAS Operator | United States Army, Fort Campbell, KY

Apr 2019 - Mar 2024

- Coordinated 24 personnel across 4 operational teams, delegating responsibilities, assigning task owners, establishing schedules and deadlines, and briefing leadership on execution plans and readiness.
- Managed an 8-week deployment readiness process for approximately 38 soldiers; used Excel to track milestones, training, medical clearances, and personnel documentation, ensuring all 38 completed requirements and deployed on schedule.
- Served as deployment travel lead (NCOIC), coordinating international travel, transit lodging, and soldier welfare; maintained 100% accountability for assigned personnel and equipment throughout movement to the deployment destination.

PROJECTS

Mission Control - Enterprise Operations Dashboard | github.com/roccopaz/mission-control

- Built an operations dashboard integrating 6 live REST APIs to support real-time monitoring and business decisions, with secure credential handling and error management.

Information Security Group Project | Texas State University

- Led a 5-person team through an approximately 6-week information security project, assigning responsibilities, setting deadlines, and hosting progress meetings; coordinated a final presentation that earned 98/100.

EDUCATION

B.B.A., Computer Information Systems - Software Development

Expected December 2027

Texas State University, San Marcos, TX | GPA: 3.80 | *President's List, Fall 2025 & Spring 2026*

Associate of Science, Unmanned Aerial Vehicle Flight Operator

February 2023

Cochise College, Sierra Vista, AZ | GPA: 4.0
