PROFESSIONAL SUMMARY

Texas State University Computer Information Systems student and U.S. Army veteran seeking a Summer 2027 internship in business systems analysis, IT or product operations, reporting, or security compliance. Founded an Amazon and Shopify business with \$50,000+ in gross sales in its first four months; managed 70+ high-risk cases monthly at UBS; led an eight-week readiness cycle for 38 soldiers.

EXPERIENCE

Founder | MODTECH Ventures LLC

Mar 2026 - Present

- Founded and operate a four-SKU Amazon and Shopify business that generated \$50,000+ in gross sales in its first four months.
- Analyzed 24 supplier invoices covering 14,575 units across two product lines; reduced per-unit cost by 24% through volume tiering.
- Coordinated three suppliers across approximately six product launches, managing sourcing, packaging, pricing, and fulfillment decisions.
- Reviewed customer feedback and competitor bundles; added two cartridges to the V2 pen at the same price and improved packaging instructions.

Financial Intelligence Analyst | UBS, Nashville, TN

Mar 2024 - Apr 2025

- Managed 70+ high-risk client cases monthly in anti-money laundering and compliance work, supporting case decisions and escalations.
- Created Power BI reports and used Excel to analyze transaction patterns, including date-filtered transfer activity for further review.
- Learned a multi-system financial platform and assumed independent case ownership within 30 days.
- Worked with legal, IT, and compliance teams to resolve case-specific issues during client reviews.

Operations Supervisor | Senior UAS Flight Commander | U.S. Army

Apr 2019 - Mar 2024

- Served as Unmanned Aerial Systems Operator (UAS) from Apr 2019 to Jul 2021, operating MQ-1C Gray Eagle aircraft before advancing to operations leadership in Aug 2021.
- Coordinated 24 personnel across four teams, assigned task owners and deadlines, and briefed leadership on execution plans and readiness.
- Led an eight-week readiness process for 38 soldiers using Excel to track milestones; all 38 completed requirements and deployed on schedule.
- Planned two battalion range events, coordinating requirements, schedules, ammunition and support teams, and progress briefings.

Human Resources Specialist | U.S. Army, Savannah, GA

Aug 2014 - Mar 2019

- Maintained personnel records and benefits information for Army personnel, supporting day-to-day human resources operations.
- Managed onboarding documentation and helped staff navigate required administrative processes.
- Explained policy and system updates to personnel and helped resolve questions about HR procedures.
- Reviewed personnel records and supported compliance inspections.

PROJECTS

MODTECH Shipment Tracking & Alerts

- Translated MODTECH shipment-visibility needs into a user story and five acceptance criteria; directed and tested the AI-assisted workflow.
- Hermes Agent and OpenAI Codex generated the Python tracker, which checks Shippo carrier status hourly and sends Telegram change alerts.
- Documented three initial functional tests of shipment tracking and alerts to check the workflow against its requirements.
- Documented VPS safeguards: Tailscale-only administrative access, limited OAuth permissions, encrypted token storage, and environment-stored API keys.

EDUCATION

B.B.A., Computer Information Systems

Expected December 2027

Texas State University, San Marcos, TX | GPA: 3.80 | *President's List, Fall 2025 & Spring 2026*

Associate of Applied Science, Unmanned Aerial Vehicle Flight Operator

February 2023

Cochise College, Sierra Vista, AZ | GPA: 4.0
